THE CHEONICLES OF A SOLDIER. - One of the members of company G, Kanasa First Regiment, having become inspired with a glass of whisky, managed to chronicle the following as the life of a soldier : t. Man that is horn of a woman, and

colleteth as a soldier in the Kansas Firsts is of few days and short of "rations." 2. He that cometh forth at " reveille " a present also at "retreat" yea, even at fatoo," and retireth, apparently, at

Ataps, He draweth his rations from the commissary and devoureth the same. He striketh his teeth against much "hard bread," and is satisfied. He filleth his canteen with agua pura, and clappeth the mouth thereof upon the bung of a whisky barrel, and after a little while he gneth away rejuicing to his strategy.

4. Much soldiering hath made him charp-year even the seat, of his breeches

are in danger of being cut through: 5. He covenanteth with the credulous armer for many chickers, and much honey and milk, to be paid promptly at the end of each ten days; and lo! his regiment noveth on the ninth day to another post. 6. His tent is filled with potetoes, cab-

bage, turdipe, krout, and other delicate moraela of a delicious taste; which abound not in the commissary department. 7. And many other things not in the "return," and which never will return ; yet for a truth, it must be said of a soldier of the Kansas First, that of a surety he taketh

nothing which he cannot reach. 8. He liveth his Minle rifle at midnight and the whole camp is aroused and formed note line; when lo I his mess comes bearing in a nice porker, which he declareth so resembled a secend, he was compelled to pull

trigger, 9. He giveth the Provost Marshal much trouble, often capturing his geard, and possesseth himself of the city.

10. At such times lager and pretzels

flow like milk and honey from his generaus hands were said without afint to his comrade yea! and withholdeth not from the lack expectant Hoosier of the "Indiana Twenty-lourth." 11. The grunt of a pig, or the crowing of a cock, awakeneth him from the soundest

sleep, and he sauntereth forth, until halted

by the guard, when he instantly clappeth

his hand upon his bread basket, and the

guard, in commissration, alloweth him to pass to the lear. 12. No sooner bath he passed the sentry's best, then he striketh a "bee line" for the nearst hen roost, and seizing a pair of plump pullets, returneth, soliloquizing to bimself: "The noise of a goose saved Rome; how much more the flesh of chicken

preserveth the soldior!" 13. He playeth auchra with the parson whether there will be preaching in the camp on the Sabbath, and by dexterously "turning a Jack" from the bottom, postponeth the service.

14. And many other marvelous, things

dueth he; and; lo! are they not recorded ia the morning reports of Company G? If the members of Company G love fighting as well as they do fun, there is no fear

but they will give a good account of them-

THE NAVAL SCHOOL. The Providence Journal of Monday

News states that Genators Anthony and Simmons, and es-per ally the former, are distinctioned to use their influence to aid in retaining the School at Newport, and are unfriendly to the project."

And thus in the opening paragraph of an abusive article worthy of 'Ned originally raised, armed and paid. Buntiine's" gigantie brain, forces upon its readers a wilful misrapresentationas the above.

In order to show our readers again what we did say, we republish it. Please look at the following lines, Bir. Journal and tellous if they have any similarity to your milk and water version of matters:---

"Let it be understood that if the Naval School is removed from Nowport it will be owing solely to the ind-cility, the stupidity, or the corruptibility of Henry B. Anthony and James F. Simmons, who would sell the interests of our glorious little State for their own private ends. They have done it before and they will do it again. Look out for them. He that is not houset in his private life will be still less likely to be in public affairs."

Thus it will be seen that we charged three different causes for the removal of the School, without specifying which of them was the one most to be feared, and owing to these charges, we honestly becauses has been removed. The other two cannot be pur our or signi ore the fear of "constituents" hears the most hardly on the "unfaithful servant," and their removal being beyond the power of the weak mortals they still stand against, it remains for the people postible.

We are glad to see that the Journal intended to reflect on SENATOR Anthony-for we wished it to, and are almost disposed to offer an apology to Mr. Simmons for mentioning him in such bad вэшрапу.

To do the d-1 justice, we publish a letter from his representative to Mayor Cranston, by which it will appear that our knowledge been said against him in ined. this connection, having been forced, as the last resort to the only course left. and one which we were not disappointed in supposing both him and his protrtype, the Journal, would shield thom-

My Dear Cranton:— I am informed that some person has invented and circulated a story in Newport, that I was opposed to retaining the Naval School at Newport. I thin: It can be hately nocessary for me to make the most explicit donlain of this slander. My views on this subject are smootised from short peeps, which I made at

Therefore, we dismiss the subject for the present, assuring our friends that the prospect is now good for the retention of the School in Newport, and the Journal that we shall take occasion to refute its distorted. mean and cowardly batch of falsehoods.

The Italica are our own. The Schater is modest we never heard of the speech before.

The first great dangers of this condition of affairs are for the moment averted, but the financial exigency that now alarms many is supther consequence and another danger not yet got over. If the war is to be Capt. Blake not only apprehended but saw short, even the threatening proportions surmounted, but only in case the war is successful, and successful very soon. No nation can long keep such enormous forces in the field, whether for parade or for solual war. In the belief that there is at last proper appreciation of the need of action by the executive, we hope for early relief from the present painful conlieve, and that solely, the last of the straint, but this bope has a check in the regrets and fears which the blatory of six months of experience is the most six months of experience is the most singular that over fell to a nation. It is also gratifying to us to state that tirely in his views from Mr. Weeden respeoling the "moral atmosphere" of our much abused city. He considers it in ev ary respect a sultable place to educate "de cent young men", and thinks the surroundings of the place in that particular superior to those at Annapolis. THE BATTLE AT MILL SPRING,

OFFICIAL REPORTS.

The Western journals bring us the official report of Acting Brigadier McCook, and the regimental reports of the Ninth Ohio, Second Minnesols and Tenth Indiana. concerning the battle at Mill Spring, Ky., which supplies some interesting incidents that have not hitherto been published. Brigadier McCook says :

Seeing the superior number of the enemy and their bravery, I concluded the best mode of actiling the contest was to order the Ninth Ohio to charge the enemy position with the bayonet and turn his left Sank. The order was given the regiment to empty their guns and fix bayonets, main sprang to it with alacrity and vonifer our cheering. The cheins seconingly prepared to resist it, but before the regiment reached him the lines commenced to give way-but few of them stood, perhaps ten or twelve. This broke the enemy's flank, and the whole line gave way in great confusion, and the whole turned in a porfeot the war. rout.

The enemy met with so warm a recention in front, and afterward being flanked on their left by the Ninth Ohio, and on their right by a portion of our left, who, by their well-directed fire drave there from their hiding places, gave way, leaving a large number of their dead and wounder on their field. We joined in the pursuit which continued till near subset, when we arrived within a mile of their entrench monte, where we rested upon our arms during the night. The next morning we merched into their works, which we found deserted. Six hundred of my regiment were killed, and thirty-three wounded. I am well satisfied with the conduct of my entire command during the severe and close engagement in which they took part.

The Colonel of the Indiana Tepth save :treated gave evidence that they had been in hants to reach their den. Wagons cannon, muskets, swords, blankets, &c. were strewn all along the roads, from the battle field to within a mile of this place. where I halled the regiment, and the mer

CITIZENS OF NEWPORT.

In the present condition of our National Admirs the importance of having as many men as pussible instructed in, the duties of a soldier chanact be over-ostimated, and, in our State capeciall; where the exposed position of the Gonst in case of War with a Foreign Power, renders it impratively necessary that we be prepared for defense. Six Companies, comprising over three hundred men, have been formed by this Association, all of which are rapidly advancing in drill and discipline, but the expenses, of course, amount to a considerable sum, and the funds collected at the outset being about exhausted, we cannot, without the financial assistance of our fellow citizens, continue in what we consider to be a good work. We therefore appeal to the particism of the citizens of Newport to render us substantial and, sufficient to cashe as to care, out the objects of the organization, assuring them that we shall to the best of our fellow. It is not care, out the objects of the organization, assuring them that we shall the the of our ability, make all expandictions in a judicious and communical manner.
